

Easter Market Schloss Schönbrunn

2 to 19 April 2022

Press Release, March 2022

Easter Market returns to Schönbrunn

From 2 to 19 April around 60 exhibitors will be inviting visitors to the Easter Market Schloss Schönbrunn - including live music and a colourful children's programme.

Spring flowers, giant Easter eggs in red, yellow and blue and eggshell seating arrangements will ensure a good mood and spring atmosphere at the Easter Market Schloss Schönbrunn every day from 10 am to 6.30 pm. The variety of products in the over 60 booths is in keeping with the season. In addition to decorative items such as eggs in all colours and variations, spring wreaths, rabbits made of glass, wood, straw, pewter or felt and fine ceramics for the Easter table, there are also handmade soaps, Easter candles and selected toys. Funny little bags for Easter gifts and decorative Easter egg baskets made of cotton fabrics as well as artistic linocuts complete this year's varied assortment. A seasonal range of culinary delights from sweet to savoury rounds off the offer.

Jazz music and exciting riddles put you in a good mood

There is something for young and old in the supporting programme. Every Saturday and Sunday, as well as on Easter Monday, jazz and swing groups will delight visitors with their cheerful sounds, while market mascot Roberta the Hen will keep the children in a good mood. The funny feathered creature on stilts has come up with amusing games, great riddles and exciting tasks all about Easter and the beginning of spring for the interactive game. In the Easter Bunny workshop children transform palm catkins, branches of the season, meshes and flower pots into spring arrangements. On Holy Saturday, Roberta the Hen has a sweet surprise in store for all puzzle fans at the great Easter bunny quiz. In the Children's Museum at Schönbrunn Palace, Poldi the castle ghost is looking forward to a visit. Details of the programme can be found at www.kindermuseumschoenbrunn.at.

The Carousel in the courtyard of Schönbrunn Palace requires a full physical effort. The unique construction is driven by muscle power – visitors are invited to pedal themselves.
